# one room community

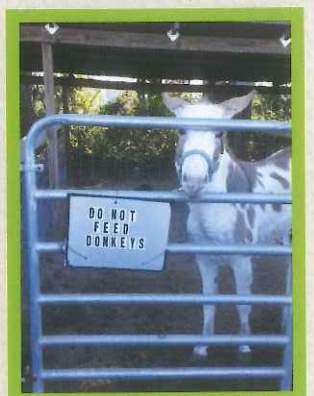

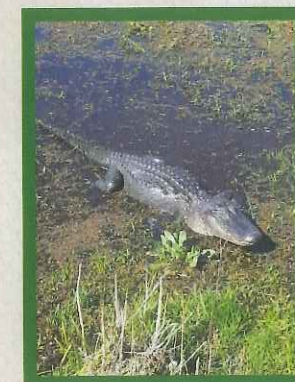

# reaching in reaching out

One Room students benefit from a close relationship with the local community and are forever indebted to our tireless volunteers, staff and families.

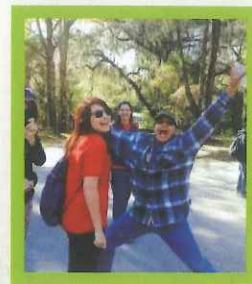

This year our students participated in a number of memorable activities including: family movie night, field trips to the Florida Natural History Museum, Gator Nationals, Skate Station and Payne's Prairie for ORMS; and the local fire station, Do Art, Splitz, and Roger's and Kirby Farms for ORSH.

One Room was also proud to be represented in the annual walk for the March of Dimes, and to assist in collecting supplies both for the local homeless as well as for tsunami relief efforts in the Philippines.

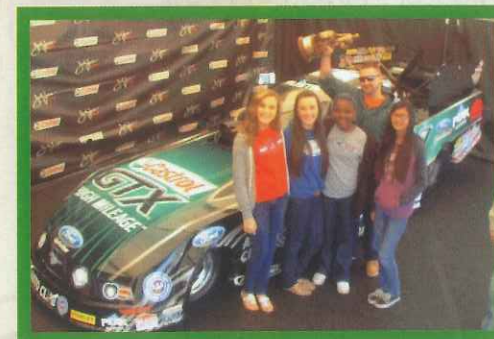

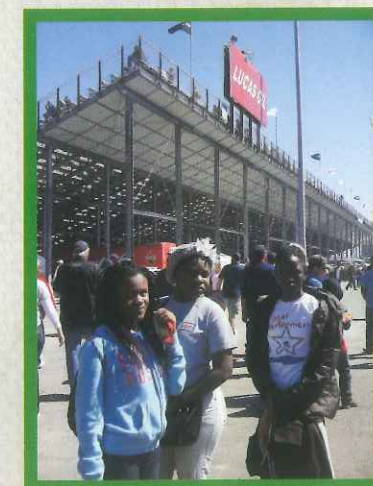

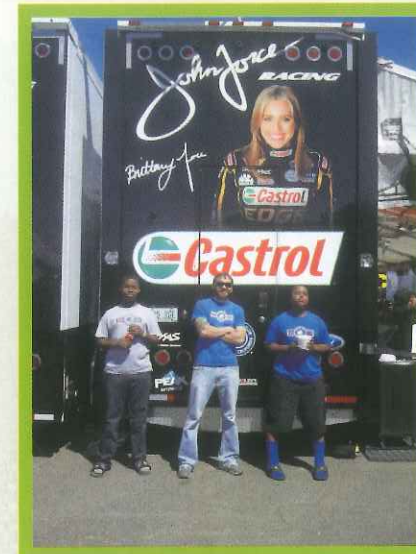

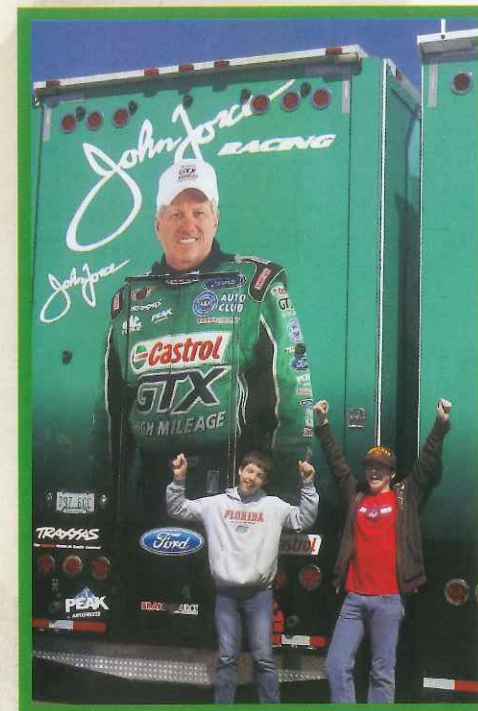

# one room **Middle School**

Whether in the schoolhouse or out in the community, ORMS students continue to shine, making us all proud of their achievements and hopeful for their bright futures.

# one room school house

ORSH students thrived while taking part in many practical, hands-on projects this year including: constructing their own solar ovens (for making s'mores of course), conducting a full-on CSI investigation, learning about the stock market, and researching the accomplishments of our honored Civil Rights heroes. When the work was done and it was time to kick back though, you couldn't find a more willing group. Work hard, play harder.
